

CM WebClient for CA Plex - RIA Templates

CM First's two-day CM WebClient for CA Plex RIA Templates class is designed as an introduction to creating stunning and rich, browser-based applications by customizing CM WebClient templates. The participant will learn how to control the look and feel of the application through the use and customization of reusable templates through JavaScript, HTML, and CSS. Students will leave the course with a deeper understanding of how they can extend and customize their web applications, and will get some exposure to developing mobile applications.
