

## CM MatchPoint ALM Developer Training

CM First provides CM MatchPoint ALM Developer Training to ensure that developers have a clear understanding of the application lifecycle management process (ALM) in a CA Plex project using CM MatchPoint ALM and Model Manager for CA Plex. Hands-on training help students learn how to manage change requests, deploy objects and integrate CA Plex models using Model Manager for CA Plex. At the conclusion, students will understand how to use CM MatchPoint ALM and Model Manager to create and manage applications.
