

## Managed Application Services

### TURN TO CM FIRST GROUP FOR LEGACY APPS AS A SERVICE

CM First's **Managed Application Services** (MAS) for RPG/COBOL, Java, C++, C# and CA 2E/Plex help organizations manage, enhance, and maintain custom applications developed in these legacy languages. CM First provides full life cycle MAS - we are an extension of your dev team.

#### A Suite of Rock-Solid Services

**Managed Application Services** encompasses custom application platform services for applications developed in RPG/COBOL, Java, C++, C# and CA 2E/Plex.

- Integration to packaged applications (Oracle, SAP, Salesforce, Imaging, etc)
- Automated Transformation from COBOL/RPG and CA 2E to Maintainable Java
- Service desk with incidence management
- Enhancements and customizations, and report development
- Web UX development, REST/API development
- Developer training
- Systems and database administration uplifts to RPG/COBOL and CA 2E/Plex, and surround technology
- Coordination with support as necessary
- Engineering point of contact, with backup
- Maintenance of customer dev environment
- Free use CM EvolveIT for MAS projects
- Our ticketing system, or yours
- Agile/Scrum project management
- IBM i/Windows/Linux cloud hosting available
- CA 2E/CA Plex licensing available

#### Why Choose CM First

##### + Our people know RPG/COBOL and CA 2E/Plex cold

Many of our engineers worked at CA Technologies and Broadcom, developing the products and provided professional services. We have performed hundreds of uplifts to RPG/COBOL and CA 2E/Plex.

##### + Our skills span the continuum from legacy to modern

For example we can develop rich web applications in JavaScript, or help you maintain your RPGIII Code.

##### + We have superior tools

We use CM evolveIT, the only static code analyzer that covers RPG/COBOL, Java, C++, C# and CA 2E/Plex, to come up to speed quickly. CM evolveIT provides an instantly comprehensible map to your applications, interfaces and business rules, free of charge.

##### + We can provide you with complete IBM i management

We can develop any code running on IBM i systems.

##### + Expert hands-on management onsite or in the cloud

If desired, we can manage your IBM i, Windows, or Linux dev environments either on-premise or in the cloud with a leading IBM i hosting company (Abacus).

## Tap Into Our "Legacy Apps as a Service Solution"

Use our support services to augment your existing programming staff, or to fully outsource your application maintenance function. Whether your project is large or small, we have the resources and expertise to customize a talented team of dedicated staff members to guarantee project success.

### Worldwide Extended Support Programs

This comprehensive Managed Application Services Plan is available worldwide and covers **operational guidance, software development, version uplift consulting, platform migration, performance tuning, capacity planning, and even informal staff knowledge transfer.**

### Work with a Dedicated Representative

As a Managed Application Services customer, whatever your problem or project, your request is handled by a **dedicated CM First staff member who knows and understands your computing environment and your technical staff.**

### Larger Development Projects

For projects requiring multiple resources, CM First offers a hybrid onshore/nearshore model to deliver quality code rapidly and at affordable rates. Managed Application Services customers are entitled to special terms. Contact us for details.

### Services Supported

RPG/COBOL, Java, C++, C# and CA 2E/Plex, along with CM First Products CM WebClient, CM MatchPoint, CM evolveIT and CM M3 are supported, as well as IBM i, DB2, PTC Implementer, Worksoft Certify, Sencha, Smart Bear, Axon.ivy, and others.

## Create a Service Plan That Works for You

Choose from multiple service plan options to create the combination of a monthly program fee and discounted hourly rate-based support that meets your budget.

|                                | Silver | Gold     | Platinum  |
|--------------------------------|--------|----------|-----------|
| Commitment*                    | Low    | Moderate | Highest   |
| Discount for Onshore Rate**    | 44%    | 55%      | 65%       |
| Discount for Nearshore Rate*** | 10%    | 20%      | 30%       |
| CM evolveIT Customer Seats     | 1 Seat | 2 Seats  | Unlimited |

\* 6 month minimum, 2 months if paid annually \*\* 15% surcharge for onsite \*\*\* Minimum commitment/hours Apply

### + Monthly Basis

Services are USD invoiced and billable on a calendar month basis, for a minimum of six months, billable in full on the first day of the month. Changes in service plan selections are effective on the first day of the month following the 60-day notice period to change plans.

### + Annual Basis

You can choose to contract with us on an annual basis, rather than a monthly basis, with a discount if you pre-pay for the year. If the full annual amount is paid at the time of sign-up, you receive **two free months of service** (you pay 10 months).

### Service Plan Selections

You may change service plan selections with a minimum 60-days written notice with no charge if you remain on a selected service plan for a minimum of six months. Nearshore resources are available only to Managed Application Services clients.

This Managed Application Services plan shall auto-renew every month if not specifically terminated in writing within 30 days of the next renewal date.

Non-plan or hourly-only clients receive response coverage on a best effort basis after Plan 1-3 clients' needs are met. **Neither 24-hour coverage or a guaranteed response time are offered to non-plan clients.**

### CM First is a global software and professional services company

with a focus on application modernization, custom development of enterprise apps and support of high-performing, agile teams. The company's products and expertise help hundreds of customers in the public and private sectors reach their desired future state faster and more cost-effectively than by using conventional approaches.
