CM FIRST
Rethink Modernization

CA Plex Advanced Training

The CA Plex Advanced training is designed to enhance the participant's ability to create more complex, real-world applications. Real-world tips and techniques will be provided with 'hands-on' exercises to ground the experience. By the end of the course, each participant will be comfortable developing a production-quality system.

Day 3
+ Module 7 – Panels
+ Module 8 – Physical Events
+ Module 9 – Arrays

Day 2
+ Module 4 – Object Types
+ Module 5 – Function Calls
+ Module 6 – Database Access

Day 4
+ Module 10 – Help
+ Module 11 – Gen & Build
+ Module 12 – Components

Day 5
+ Module 13 – Meta Functioning
+ Module 14 – Integrating with Others
