CM MatchPoint ALM Administrator Training

CM First provides CM MatchPoint ALM Administration Training to ensure that administrators have a clear understanding of the application lifecycle management process (ALM), can install and congure CM MatchPoint ALM, manage change requests and projects and be able to deploy and manage objects. Adminstrators will learn how to set up approval and deployment processes and manage user authorities. The course also serves as an introduction to Model Manager for CA Plex. With hands-on instruction over one or two days, students will also learn how to integrate CA Plex models using Plex Model Manager.
